

To the General Public and Valued Customers of LU 46 Limited Energy Contractors,

With the LU 46 Limited Energy Unit strike entering week #4, LU 46 continues to provide service to our customers. It is most unfortunate that the Puget Sound Chapter of the National Electrical Contractors Association (NECA) has decided to decrease their priority of servicing our valuable customers. To be clear; this is NOT the position of IBEW Local 46!

During this difficult and uncertain time, LU 46 has options for our customers to have ALL their electrical needs met. We are fortunate to have many dedicated electrical contractors who agree with us and are committed to servicing our customers.

Many customers had large projects interrupted due to this strike. With the focus being the Limited Energy scope of the regional industry, we have a large contractor with NO workforce issues ready to assume projects your previous electrical contractors are unable or unwilling to perform. **To these customers looking for an IBEW LU 46 contractor able to provide immediate services for fire alarm, digital antenna systems (DAS), access control, security, design – build, life safety systems, data, and ALL other limited energy work and projects across King, Jefferson, Kitsap, and Clallam Counties of Washington State, your solution is Ozz Electric! Due to their commitment to workplace safety, fair treatment of their workforce, and dedication to work / life balance, they are exempt from the LU 46 strike, and they are ready to work for YOU!**

Your direct point of contact is the Executive Vice President of Ozz Electric, Mr. David Recchia. His contact info is below:

OZZ

David Recchia

Executive Vice President - Western Canada & USA | Ozz Electric Inc.

Mobile: 604.916.5744

Email: drecchia@ozzelectric.com
